If you want to be an expert in photography, Photoshop is essential. If you want to be an expert in Photoshop, you will learn this tool's features fast. Included in Photoshop is a set of filters, tools, and other features that enable you to work with raster images (as opposed to vector, which is defined by mathematical equations) The Concept of Layers In Photoshop, you can have multiple layers that you can use to draw items on the screen and edit them all at once. The layers in Photoshop have varying "opacity" settings, which helps you see the items on each layer at a certain percentage of their full strength. If you have three layers with 50%, 25%, and 75% opacity, you'll see the layers on the screen as 50%, 25%, and 75% strong. The idea behind this is to create layers that you can add items to, then add more, and continue to build the image up. A simple way to do this is to draw an item on a new layer, then add another layer above it. Layers are a great tool for editing raster images. Here is a simple example of Photoshop layers being used. To create a new layer, click the Layer icon in the bottom left corner of the screen. This will open a new small window with options to create a new layer. Name the layer and make sure the layer is below the current layer. Note: creating a new layer is very much like drawing on a piece of paper. To erase a previous layer, double click on it. To erase a current layer, hold your mouse click and drag over the desired area. Layer Styles Layer styles include basic formatting and transformations that are applied to just your chosen layers. For example, you can create a fading effect, making one layer's content transparent and the other's opaque. To add layer styles, click on the Layer icon, then click on the Layer Styles icon to open a new window. You can edit the basic Layer Styles settings for a variety of filters, basic color/grayscale adjustments, shadows, and highlights. You can also create layer styles using layers. To do this, follow the same instructions as above, but instead of clicking on the Layer icon to create a new layer, click on the Layer icon to open a new window. To add layer styles to an existing layer, click

For indispensable reporting on the coronavirus crisis, the election, and more, subscribe to the Mother Jones Daily newsletter. In what is being billed as the most important election in a generation, Alabama's Republican Senate nominee Roy Moore has escalated his attacks against a woman who says Moore sexually assaulted her in her teens. Moore, who lost to Sen. Doug Jones (D-Ala.) in 2017, has called the alleged encounter with her decades ago a "spiritual" blessing and repeatedly told his supporters at recent rallies to pray for her. The news of the sexual-misconduct allegations first broke in a Tuesday story by The Washington Post and a subsequent story by The New Yorker. In that Tuesday report, the woman said that Moore "took off her shirt and bra and then removed his clothes," and that, "From that point on, he tried to force me to perform oral sex on him." On Wednesday, the Associated Press reported that the woman is 45 years old. "It is deeply disturbing that Roy Moore has attacked and harassed women for decades," Sen. Bill Nelson (D-Fla.) said in a statement. Trump has yet to weigh in. But the Republican National Committee released a statement Wednesday night calling the allegations "incredible and disturbing" and saying Moore "will never change." "He's given his word to his supporters time and time again that he'll never change. Unfortunately, for Alabamians who need a senator who will represent them and support their agenda, this is not the man they need," RNC Chairwoman Ronna McDaniel said in the statement. My statement on the unbelievable allegations against Alabama Senate candidate Roy Moore: — Donald J. Trump (@realDonaldTrump) November 13, 2017 Moore, who has denied the allegations and has said the woman is "defaming" him, will face Democrat Doug Jones on Dec. 12. (Jones has not responded to Mother Jones' request for comment.) Moore has yet to respond to his accusers, but in the Washington Post story, the women said they were "traumatized" by his behavior, and one described their encounter with Moore as "the most humiliating, disturbing experience of my life." Jones has been ahead in the polls since he first won his seat in
