What's New In NFS Waterfall03?

nfswaterfall03, is a beautiful screensaver that features a waterfall, mountains, rocks, calm water with slight ripples. The splashing waterfall is mirrored in the river water. The audio background is the relaxing sound of splashing and falling water. A very bright and colorful waterfall screensaver. Main Features: - A very beautiful and original waterfall water screensaver - A single window with many images - Show your attitude to all those who visit your computer (internet sites, phishing sites, etc.) - Very easy to use, just select the image file of the image you want to add and click OK. - A very friendly and exciting gameplay that makes you feel happy to use the computer. - A very very large selection of images - A music background. - When the game is on, the Waterfall will run automatically, turn off when you leave - Very easy to set up and change the game in a matter of seconds. - You can turn on/off the Waterfall by pressing the F1 key - A graphic and animation movie that lasts 5 minutes (this movie is optional) - Options to change the size and format of the images (JPG, GIF, and PNG). - An option to change the background image for the Waterfall, a great option for high-resolution screens. - An option to change the colors of the water and the rocks in the Waterfall. - Multiple languages. - An option to add some text over the images. Notes: - This screensaver uses the graphics of several images. So, in some cases, the screen will contain several images that will overlap each other. If you want to avoid this problem, you can load a different image for each one of them. You will find a specific option on the Settings menu for this.
